

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

RIGHT TO INFORMATION (RTI), ACT 2005

Sub :Details of Suomotu Disclosure under Section 4 or RTI, Act 2005 – Reg.

1.1 Particulars of Organization, Functions & Duties [Section 4(1)(b)(i)]

The International Advanced Research Centre for Powder Metallurgy and New Materials (ARCI), is an autonomous R&D Centre of Department of Science & Technology (DST), Government of India located with its main campus at Balapur, Hyderabad, Telangana State, with two of its off-campus Research Centres of Excellence (CoEs) located at the Indian Institute of Technology, Madras (IITM) Research Park, Chennai and with a liaison office being operated from Gurugram, Haryana.

Mission: To develop unique and techno-commercially viable technologies in the area of advanced materials & processes and subsequently transfer them to Indian industries.

Vision: To be a globally competitive R&D organization in the field of advanced materials and processing technologies.

- Objectives:**
- i) Development of High Performance Materials and Processes for Niche Markets.
 - ii) Demonstration of Technologies at Prototype and Pilot scale.
 - iii) Transfer of ARCI developed technologies to Indian Industry for commercial applications, to be more competitive and competent.
 - iv) To impart training to scientific and technical personnel in the field of advanced materials and processes.
 - v) To promote Science Outreach Programmes.

ARCI has been setup with a mission to develop unique, novel and techno-commercially viable technologies in the area of advanced materials and subsequently transfer them to Indian industries. A unique feature of ARCI's mandate relates to the fact that it is industry centric. Accordingly, ARCI develops and demonstrates technologies on a sufficiently large scale, not only to prove the reliability/consistency of the technology, but also to carry out effective market sensitization, so that the subsequent transfer of technology to the industry has a greater chance of success. To ensure that multi-disciplinary inputs can be readily harnessed for any of its targeted development efforts, ARCI has formed Centres of Excellence (CoEs) in many generic thrust areas related to materials and materials processing, in the areas of nano materials, engineered coatings, ceramic processing, laser processing of materials, sol-gel coatings, fuel cells, solar energy materials, automotive energy materials. These activities are pursued through Research Centres of Excellence (CoE) namely: Centre for Automotive Energy Materials (CAEM), Centre for Solar Energy Materials (CSEM), Centre for Nanomaterials (CNM), Centre for Engineered Coatings (CEC), Centre for Advanced Ceramic Materials (CACM), Centre for Laser Processing of Materials (CLPM), Centre for Fuel Cell Technology (CFCT), Centre for Carbon Materials (CCM), Centre for Sol-gel Coatings (CSOL), Centre for Materials Characterization & Testing (CMCT). Each of these CoEs has been involved in the development of advanced materials-based technologies pertaining to their core expertise. A dedicated Centre for Technology Acquisition and Transfer (CTAT) looks after marketing and transfer of technologies developed by the above CoEs of ARCI.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

ARCI provides a number of key services like technical support for developing new applications, participation in generation of new markets and up gradation of technology to its technology receivers. “Partnership throughout” is the motto in dealing with the entrepreneurs seeking to commercialize technologies acquired from ARCI. Testing and product characterization, consultancy, training in its areas of core competence are other forms of support extended by ARCI. In addition to the above, ARCI also carries out a fair amount of its job work and limited production, as these have turned out to be crucial in providing important technological impacts to ARCI’s technology development efforts. Over the years, ARCI has developed various state-of-the-art technologies employing varied approaches on its own: (a) in collaboration with academic institutions/R&D laboratories within India or abroad, (b) through establishment of a strategic alliance with an industry. ARCI has also explored the concept of establishing jointly operated centres for demonstrating specific technologies of relevance to India in collaboration with organisation.

In addition, ARCI has been undertaking numerous sponsored projects with a variety of government agencies to develop specific products and/or associated technologies, besides carrying out contract research for both foreign and Indian companies. ARCI has also been carrying out basic R&D work, especially in collaboration with renowned institutes/laboratories worldwide. So far, ARCI has successfully transferred/commercialized, technologies/Know-how to about 40 receivers and few technologies are under transfer. ARCI has developed about 250 technological solutions for industrial and strategic sectors.

Management Structure

The Governing Council (GC), consisting of Chairperson, nine members and a Member Secretary who are appointed by the Government of India and a Non-Member Secretary nominated by GC. The Governing Council is the highest executive body of ARCI and carries out the objectives of ARCI as set forth in its Memorandum of Association, Rules & Regulations and Bye-laws. The Director is the executive head of ARCI and he is the Member-Secretary of Governing Council. The Governing Council is assisted by the Technical Advisory Groups (TAGs) and Finance Committee.

ARCI is registered under erstwhile Andhra Pradesh (Telangana areas) Public Societies Registration Act, 1350 Fasli (Act I of 1350 F; Regd. No. 3170 of 1990). The affairs of the Society are managed and administered in accordance with the Memorandum of Association (MoA), Rules and Regulations and Bye-Laws and of the Society as approved by the Government of India.

The Director of ARCI is a Scientist/Technologist of repute having distinguished career in an academic/R&D institution. He is the Chief Executive Officer (CEO) of ARCI. He is assisted by Associate Directors and Heads of various Centres of Excellence and Centres and Senior Admin. & Personnel Officer, Senior Finance & Accounts Officer, Senior Stores & Purchase Officer and Finance & Accounts Officer (Projects).

Government of India)

ORGANIZATIONAL STRUCTURE

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

Organization Structure and Services Offered

ARCI comprises of ten (10) ResearchCentres of Excellence (CoEs) and each CoE is headed by a Senior Scientist. Head of each CoE reports to the Associate Directors. Each of these CoEs carry out R&D in the core areas of nano materials, engineered coatings, ceramic processing, laser processing of materials, sol-gel coatings, fuel cells, solar energy materials, automotive energy materials and additive manufacturing and materials characterization and testing. Other support Centres are: i) Technology Acquisition and Transfer; ii) Electrical, Electronics and Civil Maintenance; (iii) Information Technology; (v) Technical Information (Library); (vi) Administration & Personnel; (vii) Finance & Accounts; (viii) Stores & Purchase; (ix) Security & Safety (x) Liaison Office, Gurugram.

Genesis and Inception

ARCI became a full-fledged, autonomous R&D Centre of Government of India's Department of Science and Technology (DST), during the year 1997. The seed to the genesis of ARCI, was sown way back in the year 1985-86, when the DRDO's–Defence Metallurgical Research Laboratory (DMRL), under the dynamic leadership ofProf. P. Rama Rao and erstwhile USSR's Belarusian Powder Metallurgy Association (BPMA), under the leadership of Prof. Oleg V. Roman, entered into a research collaboration in the area of Powder Metallurgy. Therefore, the history of ARCI is composed of two distinct periods. The first period spans from 1986 to 1996 during which the Centre was conceived, planned and implemented as an Indo-USSR (CIS) project. From 1997 onwards ARCI witnessed explosive growth to attain the status of a premiere laboratory for development, demonstration and transfer of materials related technologies.

It was due to the vision of Prof. Roman from USSR and Dr. VS Arunachalam, Prof. Rama Rao and Shri SLN Acharyulu from India, that the idea of setting-up a joint research centre for powder metallurgy was first conceived. After further discussions and firming up of the concept, the agreement between India and Soviet Union to set up the centre was signed on March 8, 1988, when the Indian delegation visited USSR. Prof. Rama Rao and Prof. Roman signed the agreement on behalf of India and USSR, respectively. It was also decided that DMRL would establish the project on behalf of DST, given its well-known expertise in the area of powder metallurgy. Consequently, DMRL, under the dynamic leadership of Prof. Rama Rao and Shri Acharyulu, prepared the Detailed Project Report (DPR) and submitted the same to Government of India. The proposal envisaged a contribution of Rs.46.28crores from Indian side towards establishing the centre at Hyderabad and an equal contribution from the Soviet Union in kind, i.e. in the form of equipment's, test facilities and pilot plants. In all, the Soviet Union was expected to supply a total of 177 equipment free of cost. The DPR was put-up to the Government of India by the International Division of DST, under the stewardship of Dr. AP Kulshreshtha and Dr. YP Kumar, for being considered as a project of the Integrated Long Term Program (ILTP) of Indo-Soviet cooperation in science and technology and was approved by Expenditure Finance Committee (EFC) and finally the Cabinet Economic Affairs Committee (CEAC) on May 2, 1990. In fact till today, ARCI remains the most successful and biggest project of ILTP.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

Initially, the Advanced Research Centre (ARC) for Powder Metallurgy was registered as a society in erstwhile united state of Andhra Pradesh on October 15, 1990. The first Governing Council (G.C.) of ARC met on November 25, 1990 under the Chairmanship of Dr. Vasant Gowarikar (then Secretary, DST) and Co-Chairmanship of Dr. Arunachalam (then Scientific Adviser to Raksha Mantri, DRDO). Prof. Rama Rao, then Director of DMRL, and Shri SLN Acharyulu were also members of the first Governing Council. A Steering Committee was also constituted, comprising of Prof. Roman and Prof. Rama Rao and an Advisory Council, which included Dr. AC Raghuram of NAL-Bangalore and Prof. RK Dubey of IIT-Kanpur. The present land (95 acres 22 guntas) on which ARCI has been built was identified soon thereafter and the erstwhile Andhra Pradesh Government in principle agreed to provide the land. A detailed report from Metallurgical Engineering Consultants India Ltd., (MECON) to establish ARC was accepted and recruitment of 25 persons on contract/deputation was approved.

Subsequently, at the 2nd and 3rd Governing Council meetings, the name of ARC was changed to "Indo-Soviet Advanced Research Centre (ARC) for Powder Metallurgy" (20.04.1991) at the instance of the Soviet Union and Prof. Roman was included as a Governing Council Member. In the 4th Governing Council meeting (September 21, 1991), Prof. Rama Rao, who was by then Secretary, DST, took over as Chairman, Governing Council of ARCI. Shri Acharyulu became Project Director (in addition to being Director, DMRL) and Shri G.S. Bhattacharjee became the Chief Project Officer (CPO) and also Member Secretary, Governing Council. Shri S.B. Krishnan started his association with ARC from this G.C. meeting as the new Financial Advisor of DST. The Advisory Council of ARC was expanded to include Dr. CK Gupta and Dr. S. Banerjee both from Bhabha Atomic Research Centre (BARC). At this time, the 95 acres 22 gunthas of land was formally handed over to ARC by the erstwhile Andhra Pradesh Government against a total payment of Rs. 47.80 lakhs towards cost of land. Subsequently, on October 6, 1991, the bhoomi puja was performed on the acquired land.

The 6th Governing Council meeting (held on June 9, 1992) was important, since the Soviet Union had collapsed by then and the Confederation of Independent States (CIS) comprising of independent nations had come into being. The consequences for ARC resulting from the above change were enormous. Though the first lot of 22 free equipment had come by then and the second batch of 43 equipment was ready for dispatch, the CIS side could not pay for the freight of this equipment. Similarly, the CIS countries could not pay the international air fares in respect of their experts who were required to visit ARC to install equipment and facilities. More importantly, many of the equipment originally proposed could not be supplied, since it involved coordination among the CIS countries and this was not possible, given the prevailing political situation. Lastly, even equipment that was available could no longer be provided free of cost as originally agreed and ARC had to pay for such equipment. As a consequence, the contribution of Soviet Union/CIS countries to ARC in kind eventually ended up being to a tune of the order of Rs.25 crores as compared to the Indian contribution of Rs.46.28 crores.

In the meantime, however, preparations for establishing ARC were progressing steadily under the stewardship of Shri Acharyulu and Shri Bhattacharjee. The first batch comprising of 1 regular employee, 21 contract employees, and 2 employees on deputation had been recruited and civil works on the acquired land had commenced. Consequent to Dr. Arunachalam leaving DRDO, Dr. APJ Abdul Kalam took over as Scientific Adviser to Raksha Mantri and thus began his long association with ARC as the Co-Chairman of its Governing Council from its 7th meeting (held on January 26, 1993) onwards. The contract employee strength also continuously increased during the years 1993 and 1994 and reached 93.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

Meanwhile, during March 1993, the original agreement between India and the former Soviet Union (signed in 1988) was revisited and was replaced by a multilateral agreement between ARC (India) and the Science Academy representatives of all CIS countries, i.e. Russia, Ukraine, Belarus etc. The above agreement signed in 1993 was the first step towards ARC becoming an International Centre. As a result of this agreement, the name of ARC was changed to “International Advanced Research Centre for Powder Metallurgy and New Materials (ARCI)” as it is known today, on March 17, 1994.

The implementation of civil and electrical works progressed in full swing during the years 1993 and 1994. Once the infrastructure for ARCI at its permanent location at Balapur village became nearly ready in May/June 1994, all ARCI personnel, until then stationed in Power Metallurgy (PM) Plant (one of the laboratories) of DMRL, moved to the new ARCI premises. The equipment which had been received from the CIS countries before that time (and mostly kept stored) were installed and commissioned at the new ARCI premises. The already operational detonation spray coating unit was also moved from the MIDHANI shed (a defence PSU) to new ARCI premises.

At this juncture, tragedy struck and quite unexpectedly when Shri Bhattacharjee, Chief Project Officer of ARCI from 1991, passed away on October 22, 1994. The contributions of Shri Bhattacharjee to the establishment of ARCI are indeed immeasurable. It is most appropriate that ARCIans always remember him in a more tangible fashion. In his memory, ARCI Seminar Hall was named as “GS Bhattacharjee Seminar Hall”.

Subsequent to this event, Dr. G. Sundararajan, Dr. Y.R. Mahajan and Mr. Bijoy Sarma were brought into ARCI at the instance of Prof. Rama Rao and Shri Acharyulu to evolve programmes in the areas of coatings, ceramics and powder metallurgy, respectively. At the 11th Governing Council meeting (on June 3, 1995), the three of them were appointed as Deputy Directors. This Governing Council meeting was also the last one chaired by Prof. Rama Rao. Thus, Prof. Rama Rao was the Chairman of ARCI's Governing Council during the most crucial phase in the evolution of ARCI into a sustainable R&D centre and all ARCIans are conscious of his immense contributions.

Prof. VS Ramamurthy assumed charge as Secretary, DST in May 1995 and thus took over as the Chairman of ARCI's Governing Council, with Dr. APJ Abdul Kalam continuing as the Co-Chairman. Prof. Ramamurthy was intimately associated with ARCI for the next 11 years (till May 2006) and his contributions to the establishment of ARCI as a premier materials research and technology development organization are indeed remarkable. ARCI remains eternally grateful to him.

During the first year, after Prof. Ramamurthy took over as the Chairman of ARCI's Governing Council, the following four events occurred which marked the transition of ARCI from a project of DMRL to a full-fledged R & D laboratory of DST.

- The organization of the Indo-CIS 1996 exhibition at ARCI in January 1996. All the CIS countries were represented in this exhibition and institutions from all the constituent countries participated. This exhibition provided a perfect vehicle to showcase ARCI's technologies as well as its connections with the CIS countries to the scientific and industrial community of India and, thereby, announce the arrival of ARCI.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

- On March 31, 1996, the project phase was officially declared as completed. However, for one more year (till March 31, 1997), ARCI remained with ILTP, International Division, DST and, during this period, all the remaining/ongoing infrastructural and activities related to the project phase were brought to a close. From 1st April 1997, ARCI became a full-fledged autonomous R&D laboratory of DST and thus joined the ranks of 16 other autonomous R&D institutes of DST.
- On August 1, 1996 all the contract employees were regularised and placed in regular government pay scales with the service benefits.
Thus, the transition of ARCI from the project phase to a full-fledged, independent laboratory occurred through a series of events spread over a whole year, in 1996-1997.
- On January 1, 1997, Dr. G. Sundararajan, an outstanding scientist and academician, was appointed as the first full-time independent Director of ARCI. Under his dedicated and dynamic leadership, until December 2015, ARCI has expanded its areas of R&D tremendously from merely three R&D centres to 10 Research Centres of Excellence with other support centres and human resource development activities have gained momentous growth. ARCI not only gained recognition nationally but also internationally and it has earned a special place for itself among DST Laboratories.
- On January 1, 2016, Dr. G. Padmanabham, took over the charge of Director (In-charge) and later w.e.f. 07.10.2021 he became fulltime Director of ARCI. He was an outstanding scientist and able administrator, under his vibrant leadership, ARCI was making a headway swiftly in all fronts, especially in the areas of new technologies. Suddenly, the destiny struck and untimely he passed away on June 3, 2021 in California, USA leaving behind lots of dreams to be achieved by this vibrant organisation!
- Dr. Tata Narasinga Rao, who was appointed as Director (Additional Charge) looked after the duties and responsibilities of the Director, ARCI from 4th June, 2021 to 24th November, 2022. With effect from 25th November, 2022 Dr. Tata Narasinga Rao was appointed as full time Director of ARCI. Under his able and dynamic leadership, ARCI has not only moved steadily but also made breakthrough in frontier research areas of materials technologies, which were very much in line with the Government of India's "AtmaNibharBharth" and "Make in India" Concept and other national mission programmes. Dr. Tata Narasinga Rao has successfully completed his tenure as Director ARCI and he was relinquished as Director, ARCI on 6th May, 2024 (F/N).
- Dr. R. Vijay, a young and visionary senior scientist from ARCI, has been appointed as the Director of ARCI, effective from May 6, 2024. Since taking on this role, he has already begun to implement impactful changes, demonstrating his dynamic leadership and innovative ideas for the organization's future.

The accomplishments of ARCI during the last 28 years, since it became an autonomous, grants-in-aid institute of DST has been very well documented in the Annual Reports.

Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

1.2 Powers and Duties of Officers and Employees [Section 4(1)(b)(ii)]

i) Director - Head of the Department

Director is responsible to the Governing Council and to achieve targets and to oversee the smooth functioning of the R&D and other programmes of ARCI. The Director shall see that the provisions of the Memorandum of Association, Rules and Regulations and the Bye-laws including Staff Rules are duly observed. In the case of an emergency, he may take such action as may be necessary and report it to the Chairperson of Governing Council. All other powers of the Director are elaborated in the Rules & Regulations.

All the members of the staff of the Centre shall be under the administrative control and supervision of the Director, who shall issue office orders and necessary instructions from time to time.

ii) Associate Directors

Senior Scientists depending on the functional requirements of the Centre are nominated by the Governing Council as Associate Directors. For smooth functioning and for all administrative purposes, they are the in-charges of a group of Research Centres of Excellences (CoEs) and Support Centres/Centres.

iii) Heads of Centres of Excellence

- (a) Each Centre of Excellence (CoE) or Centre is under a Head (Senior Scientist) who will be an overall in-charge of the CoE or Centre. All the staff of CoE or Centre report to the concerned Head.
- (b) All the scientists are attached to each of the Centres of Excellence or Centres. They report to the Heads and carry out Research projects including joint/collaborative and sponsored projects and other related works.
- (c) All the Technical Officers, Technical Assistants and Technicians are attached to each of the Centres of Excellence or Centres. They report to the concerned Head/Scientists/Officers. The Technical Officers along with scientists carry out Research Projects including joint/collaborative and sponsored projects. The Technical Assistants and Technicians assist and provide technical support to the scientists and technical officers in carrying out R&D projects/programmes as well as in operation & maintenance of R&D equipment, instruments and laboratory facilities respectively.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

iv) Officers in Administration, Finance & Stores etc.

- (a) Director is overall head of Administration & Personnel, Finance and Accounts sections. One of the Associate Director is the overall head of Purchase& Inventory section.
- (b) Senior Administrative & Personnel Officer (SA&PO) who reports to Director looks after and carries out duties of the sections of administration & personnel, human resource development, Hindi section, motor transport, dispatch section and ARCI Liaison Office at Gurugram. The staff of above sections report to him.
- (c) Senior Finance & Accounts Officer (SF&AO) who reports to Director looks after and carries out finance & accounts related activities. The staff working in finance and accounts section report to him.
- (d) Senior Purchase Officer (SPO) who reports to Associate Director looks after and carries entire purchase and Inventory related activities. The staff working in purchase& inventory section report to him.
- (e) Finance & Accounts Officer (Projects) who reports to Director looks after and carries out finance& accounts related activities w.r.t. various sponsored projects. The staff working in finance and accounts (projects) section report to him.
- (f) Staff Officer to Director (SOD) reports to Director. She looks after the management and coordination of works at Director's Office as well as manages the offices of Distinguished ARCI Chair and Distinguished Emeritus Scientist. The staff working in Director's office report to her.
- (g) Security, Fire & Safety Officer (SF&SO) who is the overall in-charge of security, fire and safety aspects of the centre reports to Associate Director. He is responsible for the development of greenery, maintenance and upkeep of ARCI campus and implementation of various safety precautions and measures in the campus. He is also the Nodal Officer for Special Swatchtha Campaign in ARCI Campus.
- (h) Officers and Assistants are attached to Directors' Office, administration, finance, accounts, purchase and inventory sections. They carry out the works as assigned by the concerned officials. The Driver attached to administration look after the activities of Motor transport section.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

1.3 Procedure followed in decision making process [Section 4(1)(b)(iii)]

The Director reports to the Governing Council. Director being head of the Institute is responsible for all the R&D and administrative activities. He is the final approving authority, as per the details given in bye-laws, rules and regulations. Associate Directors, report to the Director. Heads of Centres of Excellence/Centres report to the concerned Associate Directors. Scientists/staff report to the concerned Heads of CoEs/Centres.

1.4 Norms for discharge of functions [Section 4(1)(b)(iv)]

The employees of ARCI shall be governed by the Bye-Laws, Rules and Regulations and Staff Rules. In regard to all matters concerning the service conditions of the regular employees of the Centre, the Fundamental and Supplementary Rules, framed by the Government of India, Staff Rules approved by Department of Science & Technology, Government of India and such other rules and orders issued by the Government of India from time to time shall apply to the extent applicable to the regular employees of ARCI. They shall be further subject to such standing orders and circulars as issued from time to time. Notwithstanding anything contained in the Bye-laws, Rules and Regulations and Staff Rules, the Governing Council shall have the power to relax the requirement of any rule to such an extent and subject to such conditions as it may consider necessary.

The Director, ARCI is assisted by Associate Directors for all scientific and technical related matters. For all administrative, financial and purchase related matters, the Director is assisted by an Associate Director, Senior Administrative & Personnel Officer, Senior Finance & Accounts Officer, Finance & Accounts Officer (Projects) and Senior Purchase Officer. They shall be responsible for providing support services to all the scientific and technical staff.

The Director shall function under the direct control of the Chairperson, Governing Council/Secretary, Department of Science & Technology, Government of India.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

**1.5 Rules, regulations, instructions manual and records for discharging functions
[Section 4(1)(b)(v)]**

- (a) Memorandum of Association
- (b) Rules & Regulations
- (c) Bye-laws
- (d) Staff Rules
- (e) Safety Manual
- (f) Recruitment Rules for the Post of Director
- (g) Recruitment Rules for the Post of Scientist "G"
- (h) Recruitment & Assessment Rules for Scientific Staff
- (i) Recruitment & Assessment Rules for Technical Staff
- (j) Recruitment & Assessment Rules for Administrative & Support Staff

Transfer Policy and Transfer Orders

Depending on the work requirements, the scientific, technical and administrative staff may be transferred to the off campus centres/office(s) located anywhere in India.

1.6 Categories of documents held by the authority under its control [Section 4(1)(b)(vi)]

- (a) Cash Book
- (b) Receipt Book
- (c) Voucher Register
- (d) Financial Statements
- (e) Bank Guarantees
- (f) All other documents as possessed by the competent authority from time to time.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

**1.7 Boards, Councils, Committees and other Bodies constituted as part of the Public Authority
[Section 4(1)(b)(viii)]**

I. Committee constituted by Government of India

1. Governing Council (G.C.)

Prof. Ashutosh Sharma Institute Chair Professor & INAE Visvesvaraya Chair Professor & Coordinator, DST Unit on Nanoscience & Centre for Environmental Science and Engineering, Indian Institute of Technology, Kanpur	Chairperson
---	--------------------

Dr. Ravi Arora Senior Vice President, Group Innovations, TATA Sons Ltd., Pune	Member
--	---------------

Prof. Vikram Jayaram Honorary Professor Department of Materials Engineering Indian Institute of Science, Bangalore	Member
--	---------------

Prof. Vishwanathan N Nurni Head of the Department Department of Metallurgical Engineering and Materials Science, Indian Institute of Technology, Bombay-Mumbai	Member
--	---------------

2. National Advisory Committee (NAC) for TRC Project Phase II

Prof. Ashutosh Sharma Chairperson, Governing Council, ARCI, Hyderabad	Chairman
Prof. Vikram Jayaram Honorary Professor Department of Materials Engineering Indian Institute of Science (IISc.), Bangalore	Member
Prof. Yogesh M. Joshi Department of Chemical Engineering Indian Institute of Technology (IIT), Kanpur	Member
Prof. M.S. Ramachandra Rao Department of Physics Indian Institute of Technology (IIT), Madras	Member
Prof. Chandra Shekar Sharma Professor (Dean R&D), Department of Chemical Engineering Indian Institute of Technology (IIT), Hyderabad	Member
Secretary or his/her nominee Department of Science & Technology, New Delhi	Member (ex-officio)
Additional Secretary & Financial Adviser or his/her nominee Department of Science & Technology, New Delhi	Member (ex-officio)
Director ARCI, Hyderabad Hyderabad	Member Secretary (ex-officio)

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

II. Committees Constituted by the Governing Council

(i) Finance Committee (F.C.)

Dr. R.Vijay Director, ARCI	(ex-officio)	(Chairman)
Additional Secretary & Financial Adviser or his/her nominee Department of Science and Technology (DST), New Delhi		Member (ex-officio)
Head, Autonomous Institution Division Department of Science and Technology (DST), New Delhi		Member (ex-officio)
Shri. Z. V. S. Prasad, IDAS (Retired) Former Additional Controller General, DRDO-Defence Research and Development Lab (DRDL) Hyderabad		External Member
Associate Director, ARCI, Hyderabad		Member
Senior Finance &Accounts Officer (SFAO) ARCI, Hyderabad		Convener & Member Secretary

(ii) Technical Advisory Groups (TAGs)

The Governing Council constitutes TAGs to assess and review R&D and other works of each Centres of Excellence (CoEs). Each Technical Advisory Group is constituted by eminent academicians/scientists.

(i) Centre for Nanomaterials& Centre for Carbon Materials	
Dr. Ashok K. Ganguli (Chairman)	Indian Institute of Technology, Delhi
Prof.LakshmiKantamMannepalli (Member)	Institute of Chemical Technology, Mumbai
Dr.SagarMitra (Member)	Indian Institute of Technology, Bombay
Dr. B. L. V. Prasad (Member)	Centre for Nano & Soft Matter Sciences, Hubli
Prof.Amlan J. Pal (Member)	UGC-DAE Consortium for Scientific Research University, Indore
Prof.VivekPolshettiwar(Member)	Tata Institute of Fundamental Research, Mumbai
(ii) Centre for Advanced Ceramic Materials & Centre for Sol-Gel Coatings	
Prof.VikramJayaram (Chairman)	Indian Institute of Science, Bangalore
Prof. K.V. Shriram (Member)	Vikram Sarabhai Space Centre, Thiruvananthapuram
Prof. H. S. Maiti (Member)	Govt. College of Engg. & Ceramic Technology, Kolkata
Dr K.G.K. Warriar (Member)	National Institute for Interdisciplinary Science and Technology, Thiruvananthapuram
Dr. V. V. Bhanuprasad (Member)	Defence Metallurgical Research Laboratory, Hyderabad
Dr.VivekanandKain (Member)	Bhabha Atomic Research Centre, Mumbai

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

(iii) Centre for Engineered Coatings	
Dr. Indranil Chattoraj (Chairman)	National Metallurgical Laboratory, Jamshedpur
Dr. M. Kamaraj (Member)	Indian Institute of Technology, Madras
Dr. V. S. Raja (Member)	Indian Institute of Technology, Bombay
Dr. Deepak K. Das (Member)	Defence Metallurgical Research Laboratory, Hyderabad
Dr. D.A. Karandikar (Member)	Kinetic Surface Technologies, Pune
(iv) Centre for Laser Processing of Materials	
Prof. Indiranil Manna (Chairman)	Birla Institute of Technology, Mesra
Prof. T. Jayakumar (Member)	National Institute of Technology, Warangal
Prof. Amitava De (Member)	Indian Institute of Technology, Bombay
Prof. J.E. Diwakar (Member)	Indian Institute of Science, Bangalore
Prof. Jyotsna Dutta Mujumdar (Member)	Indian Institute of Technology, Kharagpur
(v) Centre for Solar Energy Materials	
Prof. A. Subrahmanyam (Chairman)	GITAM University, Vishakhapatnam
Dr. O.S. Sastry (Member)	International Solar Alliance
Prof. Kiran Deshpande (Member)	Savitribai Phule Pune University, Pune
Prof. K. Srinivas Reddy (Member)	Indian Institute of Technology, Madras
Prof. Monica Katiyar (Member)	Indian Institute of Technology, Kanpur
(vi) Centre for Automotive Energy Materials & Centre for Fuel Cell Technology	
Prof. Suddhasatwa Basu (Chairman)	CSIR-Institute of Minerals & Matls. Tech. Bhubaneswar
Dr. Ajay Dhar (Member)	CSIR-Academy of Scientific & Innovation Research, Ghaziabad
Prof. Sreenivas Jayanthi (Member)	Indian Institute of Technology, Madras
Prof. Aninda J. Bhattacharyya (Member)	Indian Institute of Science, Bangalore
Dr. N. Lakshminarasamma (Member)	Indian Institute of Technology, Madras
Mr. NS Ramanathan (Member)	LUCAS-TVS "AALIM" Centre, Chennai
Dr. V. Natarajan (Member)	Naval Physical & Oceanographic Laboratory, Kochi
(vii) Centre for Materials Characterisation and Testing	
Prof. Indradev Samajdar (Chairman)	Indian Institute of Technology, Bombay
Dr. G. K. Dey (Member)	Bhabha Atomic Research Centre, Mumbai
Dr. Avanish K. Srivastava (Member)	CSIR-AMPRI, Bhopal
Prof. Satyam Suwas (Member)	Indian Institute of Science, Bangalore
Prof. P. Venkata Satyam (Member)	Indian Institute of Technology, Bhubaneswar
Dr. R. Balamuralikrishnan (Member)	Defence Metallurgical Research Laboratory, Hyderabad

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

(vii) Centre for Technology Acquisition and Transfer	
Prof.Rishikesha T. Krishnan (Chairman)	Indian Institute of Management, Bangalore
Dr.AravindChinchure (Member)	QLEAP Academy, Pune
Dr.PremnathVenugopalan (Member)	National Chemical Laboratory, Pune
Ms.Poyini Bhatt (Member)	Society for Innovation & Entrepreneurship, IIT Bombay
Dr. Anita Gupta (Member)	Department of Science & Technology, New Delhi

I. Committees Constituted by the Director ARCI (as on 01.10.2024)

- (i) Internal Complaints Committees (ICC) – **Annexure 1**
- (ii) Official Language Implementation Committee (OLIC) – **Annexure 2**
- (iii) Welfare Committee, ARCI-Hyderabad -**Annexure 3**
- (iv) Safety Committees, ARCI-Hyderabad & Chennai Centres – **Annexure 4**
- (v) Media Cell – **Annexure 5**
- (vi) Sports & Games Committee – **Annexure 6**
- (vii) Canteen Committee – **Annexure 7**
- (viii) Costing Committee – **Annexure 8**
- (xi) Committee for Materials Management System – **Annexure 9**

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

1.8 Directory of Officers and employees [Section 4(1)(b)(ix)] (as on 01-09-2025)

Sl. No.	Name of the Employee Shri/Smt./Kum.	Designation	Telephone Nos.	Email ID
01.	Dr. R. Vijay	Director	040-24452304	vijay@arci.res.in
02.	Dr. R. Subasri	Associate Director	040-24452465	subasri@arci.res.in
03.	Dr. L. Ramakrishna	Associate Director	040-24452327	lrama@arci.res.in
04.	V. Balaji Rao	Scientist "G"	040-24452376	vbalaajirao@arci.res.in
05.	Dr. Sanjay Bhardwaj	Scientist "G"	040-24452312	sanjay@arci.res.in
06.	Dr. Shanmugasundaram Sakthivel	Scientist "G"	040-24452454	ssakthivel@arci.res.in
07.	Dr. Pramod Hiralal Borse	Scientist "G"	040-24452426	phborse@arci.res.in
08.	Dr. Joydip Joardar	Scientist "G"	040-24452411	joydip@arci.res.in
09.	Dr. G. Sivakumar	Scientist "G"	040-24452379	gsivakumar@arci.res.in
10.	Dr. Ravi Nathuram Bathe	Scientist "G"	040-24452480	ravi@arci.res.in
11.	K.V. Phani Prabhakar	Scientist "F"	040-24452329	phani@arci.res.in
12.	Dr. D. Siva Prahasam	Scientist "F"	044-66632801	sprakash@arci.res.in
13.	Dr. B.V. Sarada	Scientist "F"	040-24452448	sarada@arci.res.in
14.	Dr. Malobika Karanjai	Scientist "F"	040-24452381	malobika@arci.res.in
15.	Dr. I. Ganesh	Scientist "F"	040-24452396	ibramganesh@arci.res.in
16.	Dr. R. Prakash	Scientist "F"	044-66632801	rprakash@arci.res.in
17.	Dr. S.M. Shariff	Scientist "F"	040-24452424/ 433	shariff@arci.res.in
18.	Dr. Neha Yeshwanta Hebalkar	Scientist "F"	040-24452365	neha@arci.res.in
19.	Dr. S.B. Chandrasekhar	Scientist "F"	040-24452482	chandru@arci.res.in
20.	Dr. Dibyendu Chakravarty	Scientist "F"	040-24452407	dibyenduc@arci.res.in

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

2.2. Foreign and domestic tours

Foreign tour details are attached [Annexure 10](#)

2.3. Manner of Execution of subsidy programme[Section 4(1)(b)(xii)]

The policy regarding subsidy programme is not under the purview of ARCI. Therefore any information on subsidy programmes may please be obtained from Department of Science & Technology, Government of India.

2.4. Discretionary and non-discretionary grants

Not Applicable

2.5. Particulars of recipients of concessions, permits or authorizations granted by the public authority [Section 4(1)(b)(xiii)]

Not Applicable

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

2.6. CAG & PAC paras

Audit Paras by	Total Audit Paras received as on Date	No. of Paras for which Reply was sent	No. of Paras for which Reply to be sent is in process
CAG	114	91	23
PAC	59	44	15

3. Publicity Band Public Interface

3.1 Particulars for any arrangement for consultation with or representation by the members of the public in relation to the formulation of policy or implementation thereof [Section 4(1)(b)(vii)]

ARCI does not handle formulation of policy or its implementation. The Department of Science & Technology, Government of India looks into this matter.

Public – Private Partnerships (PPP) - Nil

- (i) Details of Special Purpose Vehicle (SPV), if any
- (ii) Detailed project reports (DPRs)
- (iii) Concession agreements
- (iv) Operation and maintenance manuals
- (v) Other documents generated as part of the implementation of the PPP
- (vi) Information relating to fees, tolls, or the other kinds of revenues that may be collected under authorization from the government
- (vii) Information relating to outputs and outcomes
- (viii) The process of theselection of the private sector party (concessionaire etc.)
- (ix) All payments made under the PPP project

3.2 Are the details of policies/decisions, which affect public informed to them [Section 4(1)(c)]

No policies/decisions are taken by ARCI, which affect the Public.

3.3 Dissemination of information widely and in such form and manner which is easily accessible to the public [Section 4(3)]

All the information pertaining to ARCI and its activities is displayed on ARCI website :www.arci.res.in as well as social media platforms like FB, Twitter and YouTube.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

3.4 Form of accessibility of information manual/handbook [Section 4(1)(b)]

Relevant records, manuals etc. are available on ARCI website: www.arci.res.in

3.5. Whether information manual/handbook available free of cost or not [Section 4(1)(b)]

Yes, relevant records, manuals etc. may be downloaded from ARCI website: www.arci.res.in

4. E-Governance

4.1 Language in which Information Manual/Handbook available

Relevant records, manuals etc. are available in English. Annual Reports are available both in Hindi and English language. Yearly, Hindi Magazine "SRUJAN" is available in Hindi.

4.2 When was the information Manual/Handbook last updated?

- (i) Bye-laws, Rules and Regulations and Staff Rules were last updated in the year 2016.
- (ii) Recruitment Rules for the post of Director in the year 2016
- (iii) Recruitment Rules for the Scientist Posts 2026
- (iv) All other Recruitment Rules in the year 1999
- (v) Safety Manual in the year 2019

4.3 Information available in electronic form [Section 4(1)(b) (xiv)]

- (i) Annual Reports
- (ii) SRUJAN Hindi Magazine
- (iii) Circulars/Invitations/Announcement of Various Scientific/Technical Seminars, Conferences, workshops, training programmes, recruitment setc.,

4.4 Particulars of facilities available to the citizen for obtaining information [Section 4(1)(b) (xv)]

Smt. N. Aparna Rao
Staff Officer to Director
Director's Secretariat
Ph. No. 040-24452302/308
Email : aparna@arci.res.in
From 0900 hours to 1730 hours on all working days of the month.

**International Advanced Research Centre for
Powder Metallurgy & New Materials**
(An Autonomous R&D Centre of Department of Science and Technology,
Government of India)

4.5 Such other information as may be prescribed under Section 4(1)(b) (xvii)

(i) Grievance redressal mechanism

A Committee is constituted to look into the above matters.

(ii) Details of applications received under RTI and information provided.

Details give in 4.6 below

(iii) List of completed schemes/projects/programmes

Attached as **Annexure 11**

(iv) List of schemes/projects/programmes underway

Attached as **Annexure 12**

(v) Details of all contracts entered into including name of the contractor, amount of contract and period of completion of contract

Attached as **Annexure 13**

(vi) Annual Reports

Details of the Performance Reports in Bilingual (Hindi & English) laid on the table of Both the Houses of Parliament.

Link to the be given for all Annual Reports
<https://arci.res.in/annual-report-2018-19>

(vii) Frequently Asked Questions (FAQs)

-

(viii) Any other information such as

- a) Citizen's Charter b) Result Framework Document (RFD)
- c) Six monthly reports on the
- d) Performance against the benchmarks set in the Citizen's Charter

Not applicable to viii (a to d)

कार्यालय आदेश

विषय: आंतरिक शिकायत समिति (आईसीसी), एआरसीआई हैदराबाद के पुनर्गठन के संबंध में।

आंतरिक शिकायत समिति का कार्यकाल समाप्त होने के फलस्वरूप, सक्षम प्राधिकारी को कार्यस्थल में "महिलाओं के यौन उत्पीड़न (रोकथाम, निषेध, निवारण) अधिनियम, 2013" की धारा 4(1) के तहत आंतरिक शिकायत समिति (आईसीसी) का पुनर्गठन करते हुए हर्ष हुआ है। तत्काल प्रभाव के साथ, निम्नलिखित सदस्यों की आंतरिक शिकायत समिति एआरसीआई, हैदराबाद का गठन किया जा रहा है:

क्र. सं.	नाम और पदनाम	विवरण
01.	डॉ. मालोबिका करंजई, वैज्ञानिक 'एफ'	अध्यक्ष
02.	श्रीमती एस. निर्मला, वैज्ञानिक 'ई'	सदस्य सचिव
03.	डॉ. बालाजी पाड्या, वैज्ञानिक 'ई'	सदस्य
04.	डॉ. ममता रघुवीर अचंता, संस्थापक निदेशक, तरुणी - एनजीओ	बाहरी सदस्य
05.	श्रीमती. राजलक्ष्मी नायर, अधिकारी 'ए'	सदस्य
06.	सुश्री मधुगुला स्वर्णा, एसआरएफ, सीईसी	छात्र प्रतिनिधि

- उक्त आंतरिक शिकायत समिति उपर्युक्त अधिनियम के तहत सभी पहलुओं को देखेगी और यह सुनिश्चित करेगी कि अधिनियम का सख्ती/कड़ाई से कार्यान्वित किया जाए तथा यह समिति हैदराबाद में स्थित एआरसीआई, बालापुर, हैदराबाद और एआरसीआई संपर्क कार्यालय, गुरुग्राम के सभी कार्यस्थल में सक्रिय रूप से कार्य करेगी।
- आंतरिक शिकायत समिति संबंधित प्राधिकारी को रिपोर्ट/विवरण प्रस्तुत करेगी और उक्त अधिनियम के तहत आवश्यकतानुसार नियमित अंतराल में बैठक भी करेगी।
- उपरोक्त क्र. सं. 4 को छोड़कर सभी सदस्यगण, अनुलग्नक में दी गई संदर्भ शर्तों के अनुसार एआरसीआई में कार्यरत महिला कर्मचारियों और छात्राओं के सामान्य कल्याण की भी देखभाल करेंगे।
- समिति उक्त मामलों की तिमाही रिपोर्ट निदेशक, एआरसीआई को भी प्रस्तुत करेगी तथा डीएसटी व अन्य एजेंसियों आदि द्वारा अपेक्षित होने पर अन्य इनपुट/संदर्भ भी प्रस्तुत करेगी।

उक्त समिति का कार्यकाल 31-03-2027 तक या नई समिति का पुनर्गठन होने तक, जो भी बाद में हो।

ए. श्रीनिवास
(ए. श्रीनिवास) 28/6/24
वरिष्ठ प्रशासनिक एवं कार्मिक अधिकारी
कृते निदेशक

सेवा में:

- उपर्युक्त सभी समिति सदस्यगण
- डॉ. नेहा वाई हेबलकर, वैज्ञानिक 'एफ' और पूर्व अध्यक्ष, आईसीसी: आपसे अनुरोध है कि कृपया सभी प्रासंगिक फाइलें और दस्तावेज पुनर्गठित आईसीसी के अध्यक्ष को सौंप दें।

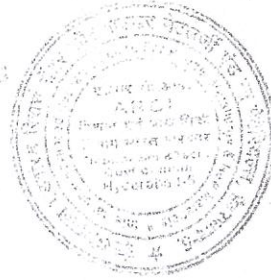

प्रतिलिपि प्रेषित :

- निदेशक/ सह-निदेशक - सूचनार्थ।
- सभी प्रमुख (सीओई)/वैज्ञानिक/अधिकारी/नियमित कर्मचारी आदि - ईमेल/डिजिटल बोर्ड के माध्यम से
- श्री के. नरेश कुमार, टी.ओ. 'सी' - वेबसाइट में अपडेट करने के अनुरोध के साथ
- प्रशासन/वित्त/भंडार - सूचनार्थ
- एआरसीआई चेन्नै और गुरुग्राम कार्यालय
- का. आ. फाइल

उपरोक्त समिति के संदर्भ हेतु शर्तें निम्नानुसार हैं:

1. एआरसीआई में कार्य करने वाली महिला कर्मचारियों को संगठित करने और उनके सामान्य कल्याण के प्रचार-प्रसार गतिविधियों का आयोजन करना।
2. एआरसीआई में लिंग के प्रति संवेदनशील और अनुकूल कार्य वातावरण की सुविधा प्रदान करना ताकि कार्यस्थल पर महिलाओं को लिंग के आधार पर भेदभाव या यौन उत्पीड़न का सामना न करना पड़े।
3. एआरसीआई में अंतर्राष्ट्रीय महिला दिवस के अवसर पर व्याख्यान/सेमिनार का आयोजन करना।
4. सभी क्षेत्रों में महिलाओं का प्रतिनिधित्व सुनिश्चित करने और उनकी उन्नति के लिए प्रचारात्मक और शैक्षिक अनुसंधान करना।
5. महिलाओं के अधिकारों से वंचित, कठिनाइयों और कल्याण सुनिश्चित करने तथा महिलाओं को राहत प्रदान करने के संबंध में एआरसीआई की महिला कर्मचारियों की शिकायतों पर ध्यान-केंद्रित करना।

Ref: ARCI/ADMIN/Canteen Committee/2025

Date: 22-12-2025

कार्यालय आदेश/ OFFICE ORDER

Sub: Re-Constitution of Canteen Committee – ARCI, Hyderabad - Reg.

The Competent Authority, ARCI, has reconstituted the Canteen Committee with the following officials to look into all matters related to Canteen at ARCI, Hyderabad with immediate effect. The tenure of the committee is for 3 years or until further orders, whichever is earlier.

01.	Shri R. Vijaya Chandar, Scientist 'E'	Chairman
02.	Shri R. Anbarasu, Technical Officer 'C'	Member
03.	Smt. Rajalakshmi Nair, Officer 'A'	Member
04.	Shri Ch. Venugopal, Assistant 'B'	Member
05.	Shri K. Satyanarayana Reddy, Technician 'E'	Member
06.	Shri Jadhav Balwant Rangrao, Technician 'A'	Member

The committee should consider the following for smooth operation & maintenance of Canteen & VIP Dining Hall:

1. To look after day-to-day operation and proper functioning of the ARCI canteen and proper maintenance of VIP Dining Hall.
2. To see that good quality and nutrition food is provided to the canteen boarders.
3. To see that proper hygienic conditions and cleanliness are maintained both in canteen and VIP dining hall.
4. To look at providing safe drinking water in canteen, VIP dining hall and all over the campus.
5. Maintaining AMC of water purifiers for entire campus.
6. To identify a vendor for timely repair of canteen kitchen equipment's like Gas Stoves, Mixes, Grinders, etc.
7. To see that canteen timings are strictly adhered to.

Shri K. Satyanarayana Reddy, Technician 'E', is hereby assigned to look after all arrangements and attend to all matters related to the **VIP Dining Hall** for all official purposes.

This order supersedes earlier orders issued on Operation & Maintenance of canteen.

यह आदेश सक्षम प्राधिकारी के अनुमोदन से जारी किया जाता है।

This issues with the approval of the Competent Authority.

OFFICE ORDER

Sub: Re-Constitution of Costing Committee – Reg

Ref: ARCI/Admin/Costing Committee/2024/, Dated 15.05.2024

In supersession of the above office order at Ref., the Competent Authority, ARCI has been pleased to re-constitute the Costing Committee with the following officials

Sl. No	Name & Designation	
1	Dr. R. Vijay Director	Chairman
2	Dr. P.K. Jain Associate Director	Member
3	Dr. R Subasri Scientist "G"	Member
4	Dr. L. Ramakrishna Scientist "G"	Member
5	Dr. Sanjay Bharadwaj Scientist "G"	Member
6	Dr. S. Sakthivel Scientist "G"	Member
7	Shri G. M. Raj Kumar Senior Finance and Accounts Officer	Member
8	Concerned Associate Director & Head of the Centre	Member
9	Shri Arun Seetharaman, Scientist "E"	Convenor

The Committee will scrutinize the break-up of component costs for the services provided by ARCI to the customer viz., R&D institutes, PSUs, Academic Institutes, and Private as well as ARCI Technology Receivers and recommend the basic costing details as per the procedure laid down.

This is issued with the approval of Competent Authority.

List of foreign visits undertaken by ARCI Officials/Students

Sr. No.	Name of the employee & designation	Purpose	Period of Travel	Country visited	Funded by
1.	Sri K.V. Phani Prabhakar, Scientist, `G`, CLPM	Training and pre dispatch inspection of 10 kW Fiber Laser & GMAW based Robotic Laser Hybrid Welding System	03 rd to 14 th March, 2025	Turkiye	ARCI OP Fund
2.	Smt. S. Nirmala, Scientist `F`, Electronics & Instrumentation Group	Training and pre dispatch inspection of 10 kW Fiber Laser & GMAW based Robotic Laser Hybrid Welding System	03 rd to 14 th March, 2025	Turkiye	ARCI OP Fund
3.	Sri E. Anbu Rasu, Technical Officer `C`	Training and pre dispatch inspection of 10 kW Fiber Laser & GMAW based Robotic Laser Hybrid Welding System	03 rd to 14 th March, 2025	Turkiye	ARCI OP Fund
4.	Dr. Ravi Nathuram Bathe, Head, CLPM	to advance joint research activities pertaining to the ongoing collaborative research project on <i>"Development, Characterization and Performance Evaluation of Polymer-Coated and Uncoated Aluminum and Titanium Alloy Powder for Selective Laser Sintering, Selective Laser Melting and Electron Beam Melting"</i> granted under India Philippines Science and Technology Cooperation.	March 17-21, 2025	Manila, Philippines	"Project Fund" - the India Philippines Science and Technology Cooperation
5.	Sri Manish Tak, Scientist `E`, CLPM	Same as above	March 17-21, 2025	Manila, Philippines	"Project Fund" - the India Philippines Science and Technology Cooperation
6.	Dr. Delhi Babu Prabhu, Scientist `E`, CAEM	To review the progress of the Lab-NPLP equipment manufacturing and verify the facilities at M/s. Nihon Denji Sokki Co., Ltd., Tokyo	February, 24-28 th , 2025	Japan	SERB project for NPLP (Project Code: PMS 000061; Program code: SREM; Budget Head: Travel)
7.	Dr. Delhi Babu Prabhu, Scientist `E`, CAEM	to undergo training on all the equipment on operation, training and maintenance aspects of NPLP pilot plant. In particular, the training for handling of jet milled powders of Nd-Fe-B is very critical as these materials are very flammable and proper training from experts will help in safe handling of these powders, during which training of	29 th April - 13 th June, 2025	Japan	NPLP pilot plant from NDK, Japan

		Jet mill equipment, Hydrogen Decrepitation, NPLO process and handling of the vacuum furnaces.			
8.	Dr. S. Paulraj, Project Scientist II	Same as above	28 th April, 2025 to 14 th June, 2025	Japan	NPLP pilot plant from NDK, Japan
9.	Dr. R. Vijay, Director,	to visit Charité University, Germany, as a part of the IGSTC project titled: "Development of Biodegradable Alloys and AM Processes for Soft Tissue Anchors (STAs)." Collaboration with project partners over the past two years has yielded encouraging results in developing alloys	11 th to 14 th May 2025	Germany	International travel, perdiem, insurance and internal travel within Germany and India will be borne ARCI under the project of IGSTC: SIGB under the International Travel Head.
10.	Dr. Bulusu Venkata Sarada, Head, CAMB	Same as above	11 th to 15 th May 2025	Germany	Same as above
11.	& Dr. Kaliyan Hembram, Scientist 'F', CAMB, ARCI	Same as above	11 th to 17 th May 2025	Germany	Same as above
12	Sri Akula Rajender Srinivas, Technical Officer 'C', CEE&CM	To undergo intensive training focused on equipment assembly, maintenance, and troubleshooting of the NPLP pilot plant.	15 th to 24 th June, 2025	Japan	NPLP pilot plant from NDK, Japan
13.	Sri. Vishal Beraka Viswanadh, Project Associate-II	To undergo intensive training focused on equipment assembly, maintenance, and troubleshooting of the NPLP pilot plant.	15 th to 24 th June, 2025	Japan	NPLP pilot plant from NDK, Japan
14.	Dr. R. Balaji, Scientist, CFCT	Invited as honored guest and speaker in the Indo Danish Research Alliance Conference	1 st to 5 th September, 2025	Denmark	Danish Ministry of Education & Research, Denmark
15	Ms. Vijaya Lakshmi Devara, SRF, CEC, ARCI	to present an Oral Presentation at MS&T.	26 th September to 2 nd October, 2025	Ohio, USA	International airfare, conference registration fee, ground transportation within USA, hotel accommodation visa fee are being borne by Anusandhan National Research Foundation (ANRF) and expenses pertaining to her visit to the extent of US \$ 375/- are being borne by ARCI
16.	Mrs. Chandra Gowthami, SRF, CAMB, ARCI	deputed to present Poster presentation at the 248 th ECS Meeting held at Hilton Chicago, USA.	12 th October to 16 th October, 2025	USA	to and fro economic class air fare by the shortest route, airport tax, Visa Fees & registration fees shall be borne by ANRF. ARCI shall provide student per

					diem charges at the rate of USD 75 per day, subject to a maximum of 5 days.
17.	Dr. Koppoju Suresh, Scientist `F`, CMCT	To conduct experiments at the PETRA-III Research Laboratory	01 st to 10 th November, 2025	Hamburg, Germany	DST-DESY Project funded by DST & coordinated by JNCASR, Bengaluru

4.5 - (iii)List of completed schemes/projects/programmes

Sl.No.	Title of the Project	Funding Body
1	Studies on rechargeable Zinc air cells for solar energy storage	DST
2	Design and development of open air compatible state of the art solar selective coating for high temperature concentrated solar thermal power generation applications	DST
3	Development of solar powdered autonomous road Reflectors	DST
4	Development of superconducting cavity by cold spray technique	BRNS
5	Sol-gel Coatings for Photonics, Microelectronics and Energy conversion Applications (Indo-Belarus)	DST
6	Development of refractory metals and composite coatings for protecting electromagnetic rail gun by cold spray technique	ARDB
7	Development and supply of 8 mol% Ytria Stabilized Zirconia (8YSZ) porous discs, strips and tubes for thermal management applications	BARC
8	Development of pulse electrodeposited Ni-W, Ni-Mo alloy coating for hard chrome replacement	SERB
9	Performance of coating under fretting wear conditions (GTMAP)	ARDB
10	Preparation of air stable and hydrocarbon fuel dispersible amorphous nanoboron powder for solid rocket fuel motors and air breathing missile applications	ARDB
11	Development of multilayered/thick film varistors using doped ZNO nanopowders for automotive applications	SERB
12	Development of Low-Low cost sodium Ion batteries for grid and off- grid storage applications	DST
13	Development of laser surface texturing technology for automotive application	DST
14	Development and manufacturing of metallic flow field plates by hydroforming method for PEM fuel cells	DST
15	Development of High Efficiency Thermoelectric Generator (TEG) Using Nanostructured Pb-Sb-Te NaCoO ₂ for Power Generation from Automobile Exhaust Waste Heat	SERB
16	Development of high entropy alloy (HEA) coating as potential bond coat materials for high temperature turbine engine applications	ARDB
17	Development of anti-reflective borosilicate glass tubes for solar thermal applications	SERB
18	Development of electrochemical and photoelectrochemical cells to convert waste stream greenhouse CO ₂ gas, methanol, CO gas as a part of developing artificial photosynthesis	SERB
19	Electrochemical synthesis of AlH ₃ , an advanced propellant ingredient	ER & IPR
20	Atmospheric processing of large area perovskite solar cell with >10% efficiency	DST

21	Process development & supply of alumina electrolyte tubes for sodium production	IGCAR
22	Development and demonstration of PEM based Electrochemical Methanol Reformer (ECMT) for hydrogen production	DST
23	Design and development of cost efficient solar receiver tube for medium and high temperature solar thermal applications	DST
24	High Voltage Carbon Encapsulated-Graded LiMn ₂ O ₄ : LiNi (1-x-y) Co(x) Al(y)O ₂ Cathodes for Rechargeable Li-ion Pouch Cells	DST
25	Lead free-perovskite sensitizers and nanostructured metal oxides for next generation solar cells (Inspire)	DST
26	Setting-up of Program Management Unit (PMU) for the Inspire programme	DST
27	Setting up of Technical Research Centre (TRC) on Alternative Materials & Systems	DST
28	Development and field demonstration of paddy straw based briquetting plant for decentralized applications in Punjab	DST
29	Novel ecofriendly novel- nanocomposite coatings for prevention of surgical site infections	DST
30	InspireProgramme: Conversion reaction based transition metal oxide hybrid electrodes for next generation lithium ion batteries	DST
31	Residual stress and structural characterization of thermal barrier coatings using spectroscopic techniques (GTMAP)	ARDB
32	Novel powder metallurgy processing by spark plasma sintering technique for fabrication of Ti,Zirconia & hydroxyapatite based functionally graded materials & graphene based components for dental appl.	SERB
33	Mechanical behaviour of advanced high strength steel processed by Additive Manufacturing	SERB
34	Nanostructured graphene sheets based composites as electrode material for energy storage application	SERB
35	Nanoclay based self healing coatings on Al and Mg alloys	SERB
36	Development of Self Disinfecting nanoparticles and electrospun coatings on face masks and medical suits for combating COVID19	DST
37	Flexible large area and stable perovskite solar cells- Research Scientist Scheme Fellowship (RSSF)	SERB
38	Thematic Unit of Excellence on Nanomaterials based technologies for automotive applications	DST
39	Development of Lithium ion batterieis for Elelctric Vehicle Application	SERB
40	Transition metal dichalcogenides nanostructure; a better alternative for Li-Ion and Na-Ion battery anode (Inspire)	DST
41	Development of hard chrome replacement Ni based alloy coating for gun barrel application using pulsed electrode deposition	ARDE
42	Development of high temperature flap seals and carbon bushes (CARS Project)	RCI

4.5 (iv) List of Schemes/Projects/Underway

Sl.No.	Details of Projects
1	Facility establishment and realization of low-expansion glass ceramics (LEGC)
2	Centre for Electrochemical Energy Storage - Design Development , fabrication and evaluation of utility - Scale high performance batterieies
3	Development and pilot scale production of a novel nano fertilizer nDAP and nanobiopesticide Harpin loaded Chitosan
4	Advanced Processing Technology Development for Rare Earth Magnets for Automotive and EV applications
5	Setting up of Programme Management Unit (PMU) for INSPIRE Program Phase 2
6	Performance of phase change material based heat sink embedded with open cell metal foam through PM route for thermal energy storage
7	Collaborative research for accelerated development of materials and devices for energy harvesting and conservation technologies- Integrated Clean Energy Materials Acceleration Platform ICMAP Materials
8	ICMAP on Net Zero Energy Building - Development of Spinel Nanoparticles and Spinel - PCM nanocomposite Materials for Solar Receiver tubes and Thermal Energy Storage applications
9	Development and Scale up of Indigeneous Next Generation Solid Oxide fuel Cell technology and demonstration of process line (10kW) for prototype production
10	Investigation and Development of All Phosphate Dual Ion Solid state batteries
11	Rare Earth Corrosion Inhibitor based corrosion protection coatings on metal alloys
12	Dev. of Ceramic and UHMWPE textile based Hybrid Polymer composite armour - Subproject: Dev and Supply of SiC tiles for impact resiatnce applications - by Minsitry of textiles
13	A novel approach towards developing high energy density and low cost cathode material for fabricating microsize all solid state printed batteries
14	Boron nitride nano sheets strength end Ti 64 alloy manufactured using laser powder fusion AM technologies for improved corrosion and wear resistance
15	Designing next generation sustainable energy conversion and storage systems using two dimentional layered ceramic materials and perfluorinated ionomer films

16	Developemet of high engery supercapacitors by dry coating process for smart toys
17	Safe energy efficient cobalt free lithium batteries with printed thermoelectrics as over heat protector & energy harvester
18	Demonstration of hard chrome replacement through thinner carbide coatings on industrial shafts using HVOF spray Technology
19	Development of luminescent transparent ceramics for scintillation and dosimetry application
20	Assessing suitable additive manufacturing technology for processing gamma titanium aluminide components with desired microstructures and high temperature properties for aero engine applications.
21	Computational design and development for new Ti-Al-Nb based alloys with rare earth metal additions for PM and Am applications (Indo-Russian)
22	Demonstration of cylindrical high power impulse magnetron sputtered HiPIMS coatings to prevent hydrogen embrittlement or permeation
23	Conductivity tailored scalable gel-ion pouch cell battery with innovative functional carbon additives
24	Synthesis of C-103 alloy powders and its laser powder bed fusion manufacturing for high temperature applications
25	Ecofriendly Biofilm Inhibiting Coatings on Hernia Repair Meshes for Prevention of Surgical Site Infections
26	Additive Manufacturing of single crystal Superalloys
27	Validating Low-Thermal Conductivity Ceramic Materials as Elivated Temperature Thermal Barrier Coating Meant for Gas Turbine Applications
28	Development and demonstration of materials and fabrication technologies for tropical batteries
29	National Good Laboratory Practice (GLP) Compliance Monitoring
30	Studies on Nano-Ink Coated flexible substrates for photovoltaic Applications
31	Development of Tungsten jet Vanes by Additive Manufacturing Technologies
32	Indigenous development and characterization of thermoelectric materials and compact thermoelectric elements for advanced space power systems

33	Graphene-Modified Magnesium-Based Thermoelectric Devices for Low-to-Medium temperature industrial energy recovery applications
34	High Mn-Cr steel for reclaiming slurry handling equipment
35	Development of Next Generation Metal- Supported oxide Fuel cells (MS-SOFCs) for stationary and Mobile Applications: Establishing a proof-of-concept under the First 'Make in India' Initiative.
36	Development of oxidation resistant MAX phase coating for Zr based accident tolerant fuel (ATF) cladding
37	High Performance and high durable polymer electrolyte membrane fuel cell stack utilizing Pt loaded on a bio-based polymer wrapped Sri-Lanka vein graphite as the electrocatalyst
38	Soft magnetic nano composite for electric motor core through conventional PM/AM route to achieve high saturation magnetization and low core loss for low to medium frequency applications
39	Indigenization of thermal spray grade metal alloy and cermet powders using different Techniques
40	Developing cost effective, sustainable and portable post treatment strategies to enhance performance of thermal sprayed coatings
